

TIME TO SET UP YOUR OWN FOCUS WALL

What is a Focus Wall in a Classroom?

A focus wall in a classroom is a special area of your wall devoted to key learning targets.

Think of it as a place to share with your students:

- ⇒ what they're learning this week
- ⇒ goals of the week
- ⇒ focused on key word

Building on the **visible learning principle**, focus walls ensure that the learning goal is explicit, and allow students and teachers to work together to attain success.

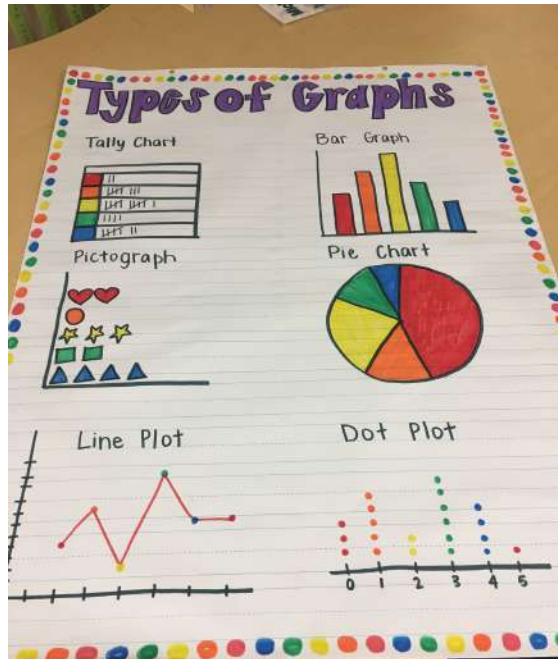

What Goes on a Focus Wall?

What goes on your focus wall is going to be dependent on how you want to use this teacher tool, and also dependent on what and who you teach!

Focus walls are meant to be changed up frequently, and that means developing a system that doesn't take you hours and hours to update!

SAMPLE ANCHOR CHARTS

What is a list?

→ A list is a group of things written in order.
